Copia Capital wins 'Best value for money' award from Citywire

Also shortlisted for 'Best Reporting', 'Most Satisfactory Investment Outcome' and 'Scotland and Northern Ireland'

LONDON, 3rd August 2021 - Discretionary Fund Manager Copia Capital Management is delighted to have won the award for 'Best Value for Money' in the [Citywire Wealth Manager Adviser Choice Awards](#) which have just been announced.

Copia was also shortlisted for the awards for 'Best Reporting', 'Most Satisfactory Investment Outcome' and 'Scotland and Northern Ireland'.

Robert Vaudry, managing director of Copia, commented, "We are extremely pleased to have won this award which reflects everything that our clients tell us they appreciate about Copia. The exceptional value that we offer is reflected in the rapid growth of funds under Copia's management this year, and our projected growth figures for the future.

"We know that advisers value the high levels of service and strong returns that we deliver for their clients, along with an approach to structuring fees that is competitive, transparent and fair. We are also pleased to have been shortlisted in the other categories which demonstrates the strength and depth of our offer and our high standards of service."

The awards replace Citywire's Regional Stars awards in recognising the best discretionary fund managers in the eyes of advisers across the UK, and are based on votes from more than 600 advisers who make up Citywire's *New Model Adviser* audience.

Copia is a discretionary fund manager that offers a range of Custom and "off the shelf" portfolios, as well as a range of ESG-compliant models, screened for their performance, ESG profile and value-for-money characteristics. Copia offers a proven route for IFAs to reliably de-risk their retail investment activities, delivered through strong working relationships with its clients underpinned by a data-driven approach and technical know-how.
