Corporate Vision Magazine names Copia's Robert Vaudry as 'most outstanding leader in investment management 2022 – UK'

LONDON, 15 February 2022: Copia Capital Management's Managing Director Robert Vaudry has been named as the 'Most Outstanding Leader in Investment Management 2022 – UK' in the [Corporate Excellence Awards](#), given by [Corporate Vision Magazine](#).

The Corporate Excellence Awards are decided annually by Corporate Vision Magazine's own in-house research team and recipients are determined via an internal process of analysis, shortlisting and selection.

The publishers say, "This year's programme has not only been designed to celebrate and raise the profile of industrious, hardworking and innovative businesses from across the globe, but recognise the key players who have maintained leadership in their industry in what has been the most challenging past 2 years."

Over the last year Copia has grown significantly, becoming the eighth-fastest-growing DFM in the UK according to [NextWealth](#). It has seen major growth in demand from advisers for its [MPS Custom portfolios](#) which are created to meet advisers' bespoke requirements. It has also introduced new portfolios, increased its ESG credentials through independent MSCI ratings for its portfolios, and recruited a number of new team members as it increases its independence from its parent company Novia Financial.

Commenting on the award, Robert Vaudry said: "This recognition pays tribute to the Copia team, and the strength of Copia's proposition in a competitive marketplace. We are experiencing strong demand for all our portfolios, and are excited by the continuing strong growth prospects for the year ahead."

Copia is a discretionary fund manager that offers a range of Custom and "ready to go" portfolios, as well as a range of ESG-compliant models, screened for their performance, ESG profile and value-for-money characteristics. Copia offers a proven route for IFAs to reliably de-risk their retail investment activities, delivered through strong working relationships with its clients, underpinned by a data-driven approach and technical know-how.
